OPEN POSITION

Job ID: #JOB 47/2022

Job Description

Job Title: Assistant (asystent)

Job Summary: Experimental and theoretical investigation of quantum and wave-dynamical chaos in low dimensional systems

Job Description:

The researcher will be involved in the experimental and theoretical study of generic properties of quantum systems in the realm of quantum chaos in particular using quantum graphs and microwave networks as model systems.

The candidate will be involved in the implementation of the experiments using microwave techniques, numerical analysis of the experimental data and preparation of publications.

The candidate should have an extensive experience in such studies, proved by the authorship of scientific papers in world recognized international journals.

The candidate should have a large experience with numerical computation - available platforms: Matlab, Mathematica.

Main research field: Physics

Sub Research Field: Nonlinear physics, chaos

Career Stage: The candidate should have master of Science degree or doctor's degree in physics or in related discipline.

Research Profile ([details](#)): First Stage Researcher (R1) or Recognised Researcher (R2)

Type of Contract: Temporary 12 months with the possibility of extension

Status: Full-time

Salary: 4,300 PLN per month (before taxes)
