

Results for the DAINA 2 call for Polish-Lithuanian research projects were announced. One of the 11 applications qualified for funding was **Emilia Witkowska's** project entitled

**Spin-orbit coupling for the production of non-trivial quantum correlations in ultra-cold atomic gases**, 530 700 PLN

It will be realized in cooperation with

**Gediminas Juzeliūnas** from the Institute of Theoretical Physics and Astronomy, Vilnius University,

Congratulations.
