

SEMINARIUM RENTGENOWSKIE

Dnia 27.05.2014r. o godz. 10.30, w sali D Instytutu Fizyki PAN, odbędzie się seminarium rtg., na którym **dr Dmitry Zatsepin** z Instytutu Fizyki PAN, wygłosi referat na temat:

"Familiarization with XPS method and technique"

Abstract:

An introduction to X-Ray Photoelectron Spectroscopy (XPS) method and technique will be given, as well as an overview of main advantages, features and tricks in order to make "clean" XPS experiment will be reported. After quick overview the main features and possibilities of XPS method will be reported, using real XPS data as an example.
